Contents

Preface ix

PART ONE: BIOMANIPULATION: PAST, PRESENT AND FUTURE

Biomanipulation: retrospective and future development
by M. Gophen 1
Biomanipulation: the next phase – making it stable
by J. Shapiro 13

PART TWO: ZOOPLANKTON–PHYTOPLANKTON INTERACTIONS

Are blue-green algae a suitable food for zooplankton? An overview
by R. de Bernardi & G. Giussani 29
Effectiveness of phytoplankton control by large-bodied and small-bodied zooplankton
by P. Dawidowicz 43
Analysis of phytoplankton–zooplankton relationships in an oligotrophic lake under natural and manipulated conditions
by P. Carrillo, L. Cruz-Pizarro & P. Sanchez-Castillo 49
Biomanipulation by introduction of herbivorous zooplankton. A helpful shock for eutrophic lakes?
by J. Theiss, K. Zielinski & H. Lang 59
The zooplankton–phytoplankton interface in lakes of contrasting trophic status: an experimental comparison
by J. J. Elser, H. J. Carney & C. R. Goldman 69
Why do cladocerans fail to control algal blooms?
by Z. M. Gilwicz 83
Structural and grazing responses of zooplankton community to biomanipulation of some Dutch water bodies
by R. D. Gulati 99

PART THREE: ENCLOSURE STUDIES

Biomanipulation and food-web dynamics – the importance of seasonal stability
by B. A. Faafeng, D. O. Hessen, Å. Brabrand & J. P. Nilssen 119
Impact of whitefish on an enclosure ecosystem in a shallow eutrophic lake: selective feeding of fish and predation effects on the zooplankton communities
by T. Hanazato, T. Iwakuma & H. Hayashi 129
Impact of whitefish on an enclosure ecosystem in a shallow eutrophic lake: changes in nutrient concentrations, phytoplankton and zoobenthos
by T. Iwakuma, H. Hayashi, I. Yasuda, T. Hanazato & K. Takada 141
A fading recovery: the role of roach (*Rutilus rutilus* L.) in maintaining high phytoplankton productivity and biomass in Lake Vesijärvi, southern Finland
by J. Horppila & T. Kairesalo 153

Bottom-up effects of bream (*Abramis brama* L.) in Lake Balaton
by I. Tátrai, L. G. Tóth, L. Ponyi, J. Zlinskzky & V. Istvánovics 167
Applicability of planktonic biomanipulation: for managing eutrophication in the subtropics
by T. L. Crisman & J. R. Beaver 177

PART FOUR: WHOLE LAKE STUDIES

Conditions for effective biomanipulation; conclusions derived from whole-lake experiments in Europe
by J. Benndorf 187
Fish manipulation as a lake restoration tool in shallow, eutrophic temperate lakes 1: cross-analysis of three Danish case-studies
by E. Jeppesen, M. Søndergaard, E. Mortensen, P. Kristensen, B. Riemann, H. J. Jensen, J. P. Müller, O. Sortkjær, J. P. Jensen, K. Christoffersen, S. Bosselmann & E. Dall 205
Fish manipulation as a lake restoration tool in shallow, eutrophic, temperate lakes 2: threshold levels, long-term stability and conclusions
by E. Jeppesen, J. P. Jensen, P. Kristensen, M. Søndergaard, E. Mortensen, O. Sortkjær & K. Olrik 219
Phytoplankton biomass reduction after planktivorous fish reduction in a shallow, eutrophic lake: a combined effect of reduced internal P-loading and increased zooplankton grazing
by M. Søndergaard, E. Jeppesen, E. Mortensen, E. Dall, P. Kristensen & O. Sortkjær .. 229
Ecological consequences of a manual reduction of roach and bream in a eutrophic, temperate lake
by B. Riemann, K. Christoffersen, H. J. Jensen, J. P. Müller, C. Lindegaard & S. Bosselmann 241
Predictability and possible mechanisms of plankton response to reduction of planktivorous fish
by A. Lyche, B. A. Faaleng & Å. Brabrand 251
Oligotrophication as a result of planktivorous fish removal with rotenone in the small, eutrophic, Lake Mosvatn, Norway
by S. Sanni & S. B. Wærvågen 263
Whole-lake food-web manipulation as a means to study community interactions in a small ecosystem
by E. van Donk, M. P. Grimm, R. D. Gulati & J. P. G. Klein Breteler 275
First attempt to apply whole-lake food-web manipulation on a large scale in The Netherlands
by E. van Donk, M. P. Grimm, R. D. Gulati, P. G. M. Heuts, W. A. de Kloet & E. van Liere 291
Is reduction of the benthivorous fish an important cause of high transparency following biomanipulation in shallow lakes?
by M.-L. Meijer, M. W. de Haan, A. W. Breukelaar & H. Buiteveld 303
Early responses of plankton and turbidity to biomanipulation in a shallow prairie lake
by M. A. Hanson & M. G. Butler 317
Effects of planktivorous fish mass mortality on the plankton community of Lake Mendota, Wisconsin: implications for biomanipulation
by M. J. Vanni, C. Luecke, J. F. Kitchell & J. J. Magnuson 329
Effects of planktivore abundance on chlorophyll-*a* and Secchi depth
by D. J. McQueen, M. R. S. Johannes, N. R. Lafontaine, A. S. Young, E. Longbotham & D. R. S. Lean 337
Factors related to variance of residuals in chlorophyll-total phosphorus regressions in lakes and reservoirs of Argentina
by R. Quirós 343

Three years of experience in biomanipulating a small eutrophic lake: Lago di Candia (Northern Italy)
by G. Giussani, R. de Bernardi & T. Ruffoni 357

PART FIVE: MACROPHYTES

Engineering and biological approaches to the restoration from eutrophication of shallow lakes in which aquatic plant communities are important components
by B. Moss 367
The potential of artificial refugia for maintaining a community of large-bodied cladocera against fish predation in a shallow eutrophic lake
by K. Irvine, B. Moss & J. Stansfield 379
Ecosystem development in different types of littoral enclosures
by J. E. Vermaat, M. J. M. Hootsmans & G. M. van Dijk 391
Can macrophytes be useful in biomanipulation of lakes? The Lake Zwemlust example
by T. Ozimek, R. D. Gulati & E. van Donk 399
Biomanipulation of Lago di Candia (Northern Italy): a three-year experience of aquatic macrophyte management
by G. Galanti, P. Guilizzoni & V. Libera 409
Impact of mechanical deweeding on Dal lake ecosystem
D. P. Zutshi & A. Ticku 419
Proposals for macrophyte restoration in eutrophic coastal lagoons
by F. A. Comín, M. Menéndez & J. R. Lucena 427

PART SIX: MACROFAUNA

Zebra mussels (*Dreissena polymorpha*): a new perspective for water quality management
by H. H. Reeders & A. Bij de Vaate 437
Shoals of *Dreissena polymorpha* as bio-processor of seston
by R. Wiśniewski 451
Evaluation of *Chaoborus* predation on natural populations of herbivorous zooplankton in a eutrophic lake
by K. Christoffersen 459
Hydrophyte-macroinvertebrate interactions in Zwemlust, a lake undergoing biomanipulation
by J. Kornijów, R. D. Gulati & E. van Donk 467

PART SEVEN: MODELS

Multiplicity of stable states in freshwater systems
by M. Scheffer 475
Quantifying the food webs of Lake Bleiswijkse Zoom and Lake Zwemlust
by A. H. Bakema, W. J. Rip, M. W. de Haan & F. J. Los 487
Production, consumption and prey availability of northern pike (*Esox lucius*), pikeperch (*Stizostedion lucioperca*) and European catfish (*Silurus glanis*): a bioenergetics approach
by A. J. P. Raat 497
Growth and food consumption of vendace (*Coregonus albula* (L.)) in Lake Pyhäjärvi, SW Finland. a bioenergetics modeling analysis

by H. Helminen, J. Sarvala & A. Hirvonen 511

PART EIGHT: MANAGEMENT

Biomanipulation additional to nutrient control for restoration of shallow lakes in The Netherlands
by S. H. Hosper & E. Jagtman 523
Biomanipulation development in Norway
by A. Langeland 535
A review: limnological management and biomanipulation in the London reservoirs
by A. Duncan 541
The potential for biomanipulation using fry communities in a lowland reservoir: concordance between water quality and optimal recruitment
by M. Zalewski, B. Brewinska-Zaraś, P. Frankiewicz & S. Kalinowski 549
The restoration of shallow eutrophic lakes, and the role of northern pike, aquatic vegetation and nutrient concentration
by M. P. Grimm & J.J. G. M. Backx 557
Effects of planktivorous fishes on the plankton community in a eutrophic lake
by T. Miura 567
Experimental study of the impacts of planktivorous fishes on plankton community and eutrophication of a tropical Brazilian reservoir
by F. L. R. M. Starling & A. J. A. Rocha 581
Some positive and negative effects of stocking whitefish on the ecosystem redevelopment of Hjarbæk Fjord, Denmark
by K. Rasmussen 593
Zooplankton impacts on chlorophyll and transparency in Onondaga Lake, New York, USA
by M. T. Auer, M. L. Storey, S. W. Effler, N. A. Auer & P. Sze 603

PART NINE: SYNTHESIS

The first biomanipulation conference: a synthesis
by E. H. R. R. Lammens, R. D. Gulati, M.-L. Meijer & E. van Donk 619
